To our Windham Educational Family:

On behalf of the Windham School Board, I am reaching out to you to express our sincere and heartfelt gratitude for all that you do. While it is said quite often (and rightly so) that we have the best educators guiding our students through their educational voyage, we don't highlight often enough how this is accomplished.

The recent presentation to the School Board showing the marked improvement in school day SAT scores year over year is but one example of how students, Faculty, Administration, and staff have embraced the philosophy of not only educating the whole student, but preparing them for the assessments that are so important to their development and preparedness for life post high school. Whether they attend college, pursue a career, or serve in the military, they are ready to take on the world. This is always the goal, but it is worth noting that it takes the passion, dedication, and effort of not only our educators (who are constantly thinking outside the box to enhance the delivery of the content to bring it to life—Teaching Like a Pirate), but our **students** as well.

A successful educational philosophy starts at the top with the Administration, is implemented by our educators, and receives the buy in from the students. That is *happening* here in Windham, and the results bear it out.

Thank you, and please keep up the great work!

Regards,

Rob

Rob Breton
Chairman, Windham School Board
