

BOARD POLICY DEVELOPMENT

The School Board shall develop policies that shall provide the framework for the operation of the schools. The administration shall operate the school system within the framework of these policies.

The formal adoption of policies shall be recorded in the minutes of the School Board. Only those written statements so adopted and so recorded shall be regarded as official School Board policy.

The formulation and adoption of these written policies shall constitute a basic method by which the Board shall exercise its leadership in the operation of the school system. The study and evaluation of reports concerning the execution of its written policies shall aid the Board in exercising its control of the operation of the school system.

There will be a Policy subcommittee appointed by the consensus of the School Board at the first regular meeting following the organizational meeting which will:

1. Review all policies annually as needed;
2. Consider requests for new or revised policies and mandated policies.

The above does not limit the School Board in formulating new policies as necessary.
