

**STUDENT COMPUTER AND INTERNET USE**

Windham School District computers, network and Internet access are provided to support the educational mission of the schools. This policy and the accompanying rules also apply to devices issued directly to students, whether in use at school or off school premises.

Compliance with the school district's policies and rules concerning computer use is mandatory. Students who violate these policies and rules may, after being given an opportunity to respond to an alleged violation, have their computer privileges limited, suspended or revoked.

The building administrator [or other applicable administrator] shall have the final authority to decide whether a student's computer privileges will be altered, based on the circumstances of the particular case. Violations may also result in disciplinary action up to and including expulsion and result in referral to law enforcement and/or legal action.

Windham School District computers remain under the control, custody and supervision of the school unit at all times. Students have no expectation of privacy in the contents or information stored on district devices or in the use of school computers whether they are used on or off school property, provided, however, that in accordance with RSA 189:68 the school district shall not install or use remote surveillance software on a school supplied computer or technology device without written consent of a parent, foster parent or guardian. (In this paragraph "surveillance" means observing, capturing images, listening, or recording and shall not include locating equipment when there is reason to believe it is about to be or has been stolen or damaged.). The written authorization of the superintendent is required before an investigation of a student computer or device by school staff may occur.

The Windham School District utilizes filtering technology designed to block materials that are obscene or harmful to minors, including, but not limited to, images of child sexual assault, and pornography. Windham School District takes precautions to supervise student use of the Internet and electronic communications, and to prevent the unlawful disclosure, use or dissemination of personally identifiable information about students. Windham School District educates students about safety on the Internet, appropriate online behavior and cyberbullying awareness and response, but parents should be aware that the Windham School District cannot reasonably prevent all instances of inappropriate computer use by students that may violate Board policies and rules, including access to objectionable materials and communications.

Windham School Board	Policy Code: IJNDB
Approved: February 20, 2018	

Students and parents shall be informed of this policy and the accompanying rules through handbooks, the school web site and/or other means selected by the Superintendent.

All devices will be equipped with software that permits the deletion of memory if the property is lost or stolen.

The Superintendent or his/her designee is responsible for implementing this policy and the accompanying rules. Additional administrative procedures or school rules governing the day-to-day management and operations of the school unit's computer system may be implemented by the Superintendent, consistent with Board policies and rules.
